Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This Office Action is in response to an Amendment filed April 17, 2008. Claim 12 was canceled. Claims 1 – 11 are pending. Claims 1 – 11 have been examined. Claims 1 – 11 have been rejected.
2. The Examiner would like to thank the Applicant for the well-presented response, which was useful in the examination process. The Examiner appreciates the effort to carefully analyze the Office Action, and make appropriate arguments and amendments.
3. This Office Action is NON-final due to new rejections.

Response to Remarks

4. Regarding claims 1 – 12 rejected under 35 USC § 112, second paragraph:
 - a. Applicant's claim amendments overcome the rejections.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

- a. Claims 1 - 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject

matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

i. Claim 1 recites in line 18, " A_k ". The definition of A_k is provided in lines 13 – 15, essentially as a shared area between a pair of circles for a circularly-shaped light source (see figure 5). However, the definition of A_k used in the ring-shaped light source of line 17 does not appear to be the same A_k that is used in the circular-shaped light source of lines 13 – 15 (see figure 6). Claims 6 and 11 are rejected analogously. Dependent claims inherit the defects of their parent claims.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

a. Claims 1 - 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

i. Regarding claim 1, the claim recites in line 14, "the lens". The term appears to have insufficient antecedent basis.

ii. Regarding claim 6, the claim recites in line 14, "the lens". The term appears to have insufficient antecedent basis.

iii. Regarding claim 11, the claim recites in line 18, "the lens". The term appears to have insufficient antecedent basis.

iv. Regarding claim 11, the claim is directed to a storage medium having stored thereon a computer program executable to perform steps. The claim recites in line 13, "means for". It is unclear whether a structure is being claimed or a process to be performed is being claimed. The Examiner suggests deleting, "means for". Further, the Examiner suggests amending the preamble to start with, "A computer-recordable storage medium . . ." rather than a storage medium, in order to avoid possible confusion with a transmission medium.

Allowable Subject Matter

7. Regarding claims 1 – 11, any indication of allowability is withheld pending the resolution of the outstanding rejections.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Russ Guill whose telephone number is 571-272-7955. The examiner can normally be reached on Monday – Friday 9:30 AM – 6:00 PM.

9. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Rodriguez can be reached on 571-272-3753.
